

Modifications Committee Submission
Walden on Lake Houston Community Services Association
c/o Community Asset Management, Inc.
9802 F.M. 1960 Bypass W., #210, Humble, TX 77338

Please provide the information requested below, and attach this sheet to your plans.

The original copy of all submitted plans will be retained by the Association. Your plans will be reviewed as soon as possible. The Board is required to act on plans within sixty days, but the review process rarely takes that long.

1. For construction projects: please provide a sketch of the location of the proposed work on a photocopy of a survey or plot plan of your property. Include a "plan" view and an "elevation" view. Scaled architect's, engineer's or contractor's drawings may be used as an alternative if lot lines, easements and building setback lines are shown.
2. For exterior painting or re-roof: Sketches are, of course, not required for re-roof or re-paint; however, color of paint must be specified (paint color chips are ideal).
3. For re-roofing projects: Shingle samples are not requested. Shingle color must be specified. Shingle warranty, or shingle weight, or ASTM Standard must be specified ("3-tab" shingles will not be approved).

Description of project for which approval is requested:

Project Address: _____

Sect. _____ Block _____ Lot _____

Property Owner's Name: _____ Ph: _____

Mailing Address: _____
(if off-site)

Contractor's Name: _____
(if any)

Proposed Construction Date: ____/____/____ Completion Date: ____/____/____

Applicant Signature: _____ Date: _____

NOTE: Contractors' advertising signs are not permitted.
